

Ecosystem Management Technician Program

Build your career brand in the Ecosystem Management Technician Program at Fleming College. We will prepare you for an exciting career that can take you where YOU want to go, either in your home community, in a wilderness environment, or across the globe.

The program prepares you for work with conservation authorities, parks departments, private consulting firms, municipal/provincial/federal governments, non-governmental organizations, First Nations communities, or stewardship organizations. Positions can be found across Canada and around the world.
