

Environmental Technician Program

Build your career brand in the Environmental Technician Program at Fleming College. Students obtain extensive hands-on experience through the use of our specialized facilities, including environmental laboratories, outdoor groundwater monitoring network, and access to a unique geologic and physiographic college setting.

The Environmental Technician program has achieved accreditation by the Canadian Environmental Accreditation Commission. Students are eligible for such environmental certifications as Environmental Professional through ECO Canada, or Certified Technician through Ontario Association of Certified Engineering Technicians and Technologists.
