

Conservation and Environmental Law Enforcement Program

Build your career brand in the Conservation and Environmental Law Enforcement program at Fleming College. This program will prepare you for you as a field ready, entry-level conservation and environmental law enforcement officers who are responsible for regulating the use of natural resources, and accountability for activities that have an adverse effect on the environment.

This program prepares you for a variety of positions, with a well-rounded selection of courses offering a good blend of practice and theory. You will be trained in such areas of study as procedural law, fish and wildlife enforcement, lands and environmental law, investigation techniques, forensics, and conflict management and avoidance.
