INTERNATIONAL VIEWBOOK 2027/28

LAND ACKNOWLEDGEMENT

Fleming College is located on the traditional territory of the Michi Saagig Anishnaabe. The College acknowledges the 18 treaties and agreements that the Michi Saagig Anishnaabe participated in from 1781 to 1923 and respects the voices and histories of Indigenous communities.

FLEMING = EDUCATION + EXPERIENCE

We're focused on getting you career-ready. All of our programs include opportunities to practice what you learn. Your program might consist of labs, simulations, applied projects with community partners, field camps, work placements, and/or co-op placements.

MAKE BIG CONNECTIONS

The size of our classes allows you to get to know your instructors and classmates while forging meaningful connections with industry professionals through placements and field work. Projects are designed to reflect real-world scenarios, often integrating students from different programs so you can gain practical experience in a collaborative environment.

OUR FACULTY HELP SHAPE YOUR FUTURE

More than just experts in their field, Fleming's faculty serve as mentors who challenge, support, and cheer you on throughout your studies, and often even beyond.

A PLACE TO BELONG

It's easy to find your people here – friends who feel like family, services and support that help you thrive, and a campus that feels like home.

BEYOND CAMPUS

Your classroom extends far beyond campus. Fleming students learn in hospitals, clinics, conservation areas, community organizations, training facilities, and industry workplaces across the region. From the Peterborough Humane Society and Kawartha Cardiology Clinic to the Eastern Ontario Emergency Training Academy, you'll gain hands-on experience in the environments where you'll build your future career.

SUCCESS STARTS *here*

We're here for you from day one and beyond graduation. Whether you're looking for Student Success Advising, free tutoring, career coaching, mental health support, accessibility services, or peer mentorship, you'll find the resources you need to thrive.

From quiet study spaces to one-on-one support, Fleming offers the tools and services that help students succeed in and out of the classroom.

Discover all of the ways Fleming is here to help you thrive

GURLEEN'S STORY:

LEARNING TOGETHER

As both a Practical Nursing student and peer tutor, Gurleen shares how Fleming's free tutoring services help students succeed.

DID YOU KNOW?

- ✓ Had an IEP in high school? Accessible Education Services can help you access accommodations and supports.
- ✓ Student Success Advisors provide personalized support to help you navigate college, build strategies for academic success, and connect with the supports available at Fleming!
- ✓ Students are eligible for up to two hours of free tutoring each week.
- ✓ Students can access Career Services support for up to two years after graduation.

Meet the International Team

INTERNATIONAL STUDENT SERVICES

Your goals and your success matter to us. We're here to support you, from your application, throughout your studies to your graduation and beyond. Some of our supports include:

- 1-on-1 advising for academic, social, cultural and personal support
- Resources within the college and the community
- Regular information sessions on academics, jobs, immigration and more
- On- and off-campus cultural events
- Trips to local and regional sites

Included in your tuition

With full-time tuition, you also receive access to:

- Health and dental Insurance for international students through MorCare Insurance
- Transit pass (Peterborough)
- Fitness and Recreational facilities
- On-campus workshops and events

Regulated International Student Immigration Advisor (RISIA)

Our on-campus RISIAs hold regular information sessions and can advise on study permits, Canadian immigration programs and temporary resident visas.

WHERE YOU'LL *stay*

You deserve a great place to call home. Residence Life and Housing Services is here to support all students living on campus to help you succeed.

Live just steps away from your classes, campus amenities, and support services, with the flexibility to cook at home or enjoy campus dining options. Our residences are welcoming spaces where you can connect with peers, focus on your goals, and truly feel at home. Plus, you can explore all that our vibrant communities in Peterborough, Lindsay, and Haliburton have to offer, from local culture to outdoor adventures. Your new chapter starts here - find yourself living in residence at Fleming.

WHY CHOOSE RESIDENCE?

- ✓ Live close to classes and campus amenities
- ✓ Build friendships and community
- ✓ Participate in residence programming and events
- ✓ Easy access to campus supports and services
- ✓ Safe, supportive environment designed for student success

IMPORTANT TO KNOW

Residence Applications for the 2027-2028 academic year open on February 1. Applications are offered on a first-come, first-served basis.

Residence is available at:

- **Sutherland Campus (Peterborough)**
- **Frost Campus (Lindsay)**
- **Haliburton School of Art + Design**

STUDYING OFF-SITE?

Students studying at partner locations, placements, or specialized learning sites may still be eligible to live in residence.

GET OUT AND *play*

Your schedule won't just be about classes. Join a club, participate in intramural or extramural competition, compete on a varsity team, hit the gym, explore the trails, or attend student events. No matter your interests, you'll find opportunities to get involved and build lifelong friendships.

GYM MEMBERSHIP INCLUDED!

- ✓ Gym access is included through tuition for students at participating campuses
- ✓ One Fleming Team
- ✓ Students from any campus can participate on varsity and competitive teams based at another Fleming campus

LOGGERSPORTS LEGACY

Fleming's Loggersports team recently captured its first gold medal in over 50 years, continuing a proud tradition of competition and environmental stewardship.

SAY *yes* TO FLEMING

From classrooms and clinics to forests, labs, and job sites, Fleming students are learning by doing every day. Explore their stories, discover their experiences, and find out why they said yes to Fleming.

- Registered Practical Nurse - Perioperative Nursing

PATHWAY PROGRAMS

- Pre-Health Sciences Pathway (to Diplomas/Degrees or Certificates)

WHERE YOU LEARN

At Fleming, hands-on learning is at the heart of every health program. Students build confidence and practical skills in advanced labs, immersive simulation spaces, and real-world learning environments that reflect professional practice.

Using industry-standard equipment and high-fidelity manikins, students gain experience in realistic scenarios before entering the workforce. Many programs also offer opportunities to learn in active healthcare and community settings, including the Peterborough Humane Society, Kawartha Cardiology Clinic, and long-term care homes in the city, where students develop their skills alongside industry professionals in fully operational environments.

Interprofessional learning experiences help students build the teamwork, communication, and problem-solving skills required in today's healthcare workplaces.

Many programs use our innovative 360° Simulation Lab, where interactive scenarios and realistic environments help students develop critical thinking, communication, leadership, and decision-making skills in a safe and supportive setting.

Visit us online to go behind the scenes and discover the labs, simulation spaces, and real-world learning environments where Fleming students gain career-ready experience.

SAY *yes* TO FLEMING

Laticia shares how the hands-on lab skills she gains in Fleming's Biotechnology program will benefit her after graduation.

ONTARIO LEARN AND STAY GRANT

Eligible students in select practical nursing diploma programs may qualify for funding opportunities through Ontario's Learn and Stay Grant.

COMMUNITY SERVICES

Turn theory into real-world impact. In our Community Services programs, you'll learn alongside peers from related disciplines while building practical skills through immersive simulations, community engagement, field experiences, and placements.

From supporting children and families to serving communities in emergency situations, you'll develop the confidence, professionalism, and hands-on experience needed to make a difference from day one.

Find Your Program

DIPLOMAS & ADVANCED DIPLOMAS

- Developmental Services Worker (Sutherland and Brockville campus) Early Childhood Education
- Early Childhood Education - Advanced Standing (Part-time)
- Educational Support (Sutherland and Brockville campus)
- Educational Support - Advanced Standing
- Mental Health and Addictions Worker
- Policing and Community Safety (formerly Police Foundations)
- Customs / Border Services Administration
- Social Service Worker

CERTIFICATES

- Community Integration Through Cooperative Education
- Pre-Service Firefighter Education and Training

GRADUATE CERTIFICATE

- Addictions and Mental Health

WHERE YOU LEARN

Learning in Community Services goes beyond lectures and textbooks. Students build practical skills through immersive simulations, hands-on training, and real-world learning experiences featuring simulation participants from the community. This helps prepare them for the challenges and opportunities of their future careers.

Depending on the program, students may participate in simulations involving emergency response, community support services, mental health interventions, classroom environments, and other real-world situations.

From simulated homes and community spaces to emergency response scenarios featuring actors and industry-standard equipment, students gain valuable experience before entering placements and professional settings.

SAY *yes* TO FLEMING

See why Xepehr chose Fleming's Educational Support program for its practical learning and placement opportunities.

DID YOU KNOW?

Fleming's annual mass casualty simulation gives Paramedic and Pre-Service Firefighter students the chance to collaborate on large-scale emergency response scenarios and participate in post-incident debriefs to gain real-world skills.

TRADES & TECHNOLOGY

Put your creativity and problem-solving skills into action through hands-on learning that reflects the realities of the workplace. In Trades and Technology, you'll learn by building, troubleshooting, designing, and working alongside students from other disciplines in environments that mirror real job sites. Taught by faculty with industry experience, you'll develop practical skills using professional tools, equipment, and technologies while gaining the confidence to succeed in a rewarding career.

SAY *yes* TO FLEMING

Heather shares how Fleming's Carpentry and Renovation Technician program combines hands-on training with opportunities to continue her education through degree pathways.

APPRENTICESHIPS

- Electrician - Construction and Maintenance (309A)
- General Carpenter (403A)
- Plumber (306A)

CERTIFICATES

- Blasting Techniques
- Electrical Techniques
- Heavy Equipment Operator
- Mechanical Techniques – Plumbing
- Trade Fundamentals
- Welding Techniques

DIPLOMAS AND ADVANCED DIPLOMAS

- Carpentry and Renovation Technician (Sutherland and Cornwall campus)
- Electrical Engineering Technician
- Electrical Engineering Technology
- Hairstyling
- Heating, Refrigeration and Air Conditioning Technician
- Resources Drilling Technician (Optional Co-op)
- Welding and Fabrication Technician

WHERE YOU LEARN

Trades and Technology students learn by doing. From day one, you'll gain hands-on experience in industry-inspired learning environments designed to replicate the collaborative nature of modern worksites.

At the Kawartha Trades and Technology Centre (KTTC), students from multiple trades learn and work side by side, developing the technical, communication, and teamwork skills employers are looking for.

The Skills Arena and the Kube bring projects to life by demonstrating how different trades contribute to a finished product, helping students understand how their skills fit into larger construction, manufacturing, and technology projects.

As part of Fleming College, the Centre for Applied Machine Intelligence and Integration Technologies (CAMIIT) also supports student learning with high-quality training through hands-on experience and applied research and innovation activities on campus.

SKILLS THAT WIN

The Skills Ontario Competition is an annual event that brings together the province's top secondary and post-secondary students to compete in hands-on challenges across the trades and technology sectors.

In 2025, Fleming students took home seven medals, five gold and two bronze, in categories like Welding, Arboriculture, Carpentry, Cybersecurity, Heating Systems, and Restaurant Service.

Fleming continues to prove that hands-on learning leads to real-world success.

Find Your Program

PATHWAYS TO POSSIBILITY

✓ Transfer from Blasting Techniques directly into Semester 2 of the Resources Drilling Technician diploma program.

ENVIRONMENTAL & NATURAL RESOURCE SCIENCES

At the School of Environmental and Natural Resource Sciences, learning extends beyond the classroom and into a living lab unlike any other. Across 150+ acres of forests, wetlands, waterways, and research spaces, you gain hands-on experience in the environments where you build your career while developing solutions that support both industry and environmental sustainability.

SAY *yes* TO FLEMING

Steve shares why he chose Aquaculture for its hands-on learning, industry field trips, and opportunities to work directly with fish every day.

DIPLOMAS & ADVANCED DIPLOMAS

- Conservation Biology
- Ecosystem Management Technician
- Ecosystem Management Technician (Part-time)
- Fish and Wildlife Technician (Optional Co-op)
- Forestry Technician - Adaptive Practices (Co-op)

CERTIFICATES

- Arboriculture Co-op
- Forestry Techniques

GRADUATE CERTIFICATES

- Aquaculture Co-op
- Environmental Land Management - Canadian Context (Frost and Cornwall campus)

WHERE YOU LEARN

Frost Campus is more than a campus — it's a living lab. Students learn across more than 150 acres of forests, marshlands, waterways, and applied research spaces that provide opportunities for hands-on learning every day.

From the on-campus fish hatchery, wildlife lab, arboretum, and insectarium to river frontage, constructed wetlands, and pollinator gardens, students develop practical skills while working in the same environments they encounter throughout their careers.

The campus is also home to two internationally recognized applied research centres: the Centre for Advancement of Water and Wastewater Technologies (CAWT) and the Centre for Innovative Aquaculture Production (CIAP), where students can engage with applied research and industry-driven projects that address real-world environmental challenges.

Find Your Program

GET YOUR HANDS DIRTY AT FIELD SCHOOL

Follow Mary and Melissa as they experience the hands-on learning opportunities that make Frost Campus a living lab.

PATHWAYS TO POSSIBILITY

- ✓ Continue your Aquaculture studies through Fleming's pathway agreement with Memorial University and pursue a Master of Marine Studies.
- ✓ Build your network through field experiences, applied research projects, and industry partnerships while you're still a student.

HALIBURTON SCHOOL OF ART + DESIGN

At the Haliburton School of Art + Design, creativity is more than what you study, it's how you learn. Through immersive, studio-based experiences, you'll learn from practising artists and designers while exploring new ideas, techniques, and mediums. Surrounded by a supportive community of makers, you'll develop your artistic voice in an environment designed to inspire creativity and growth.

SAY *yes* TO FLEMING

From working with artifacts to developing museum exhibits, discover how Rosalie is gaining hands-on experience through Fleming's Museum Management and Curatorship program.

HALIBURTON CAMPUS

ART CERTIFICATES

- Ceramics
- Drawing and Painting
- Fibre Arts
- Glassblowing
- Jewellery Essentials

DIPLOMA PROGRAMS

- Visual and Creative Arts

SUTHERLAND CAMPUS

DIPLOMA PROGRAM

- Graphic Design - Visual Communication

GRADUATE CERTIFICATES

- Museum Management and Curatorship
- Cultural Heritage Conservation and Management

WHERE YOU LEARN

Purpose-built studios are at the heart of the Haliburton School of Art + Design experience. Students create in professional spaces dedicated to ceramics, glassblowing, jewellery, fibre arts, painting, drawing, and more, giving them the opportunity to explore, experiment, and refine their craft using industry-standard tools and equipment.

Situated in a Sculpture Forest and surrounded by the nature and lakes of the Haliburton Highlands, students become part of a vibrant creative community where learning extends beyond the classroom and inspiration can be found around every corner.

At the Sutherland Campus in Peterborough, students gain hands-on experience in professional learning environments. Heritage students work with collections and artifacts through partnerships with the Peterborough Museum & Archives, while Graphic Design students develop creative solutions in an agency-style studio that reflects industry practice.

LIVE WHERE YOU CREATE!

Students can live in Fleming's dedicated Haliburton residence, just steps from studios and creative spaces.

INDUSTRY EXPERIENCE BUILT IN

Business and Information Technology students don't just learn about industry, they work with it. Throughout their studies, students collaborate on applied projects for real organizations, developing solutions to authentic business and technology challenges.

Working in teams, students apply technical, analytical, creative, and project management skills while gaining experience with the types of projects they'll encounter in their careers. These industry partnerships provide valuable professional experience and help students build connections before graduation.

SAY *yes* TO FLEMING

See how Noah went from having little computer experience to building career-ready cybersecurity skills in Fleming's Computer Security and Investigations program.

YOUR PATH FORWARD

Start at Fleming and continue your education through our 2+2 pathway with Trent University, combining hands-on diploma learning with degree opportunities.

WOMEN IN CYBERSECURITY

Build connections, gain mentorship, and explore career opportunities through a supportive network of women in technology and cybersecurity.

your guide

TO BECOMING A FLEMING STUDENT

Why is Fleming College the right choice?

Practical Education

We offer several programs you won't find anywhere else. At the heart of our programs lies extensive practical learning, so you graduate with **PROVEN SKILLS**. Employers recognize the calibre of Fleming College graduates. In several programs students receive job offers even before graduating.

Expert Faculty

Our faculty will be your **MENTORS**. They will take the time to help and guide you.

Their close industry ties keep the curriculum updated to the skills employers want.

Their strong connection to employers can give you insider tips on gaining employment.

Supportive Community

Small classes and our tight-knit communities make it easier to make **LIFELONG FRIENDS** and connections. We believe in our students, and we're here for you from the very start.

1 How to Apply

Review our guide to each step of the application process at **flemingcollege.ca/international-education/how-to-apply.**

You will find important information

- Considerations for choosing a program
- Documents required for your application
- Application dates
- Offers and offer acceptance
- Fee payments

2 Offers and Acceptance

You will receive an offer through the OCAS International Portal. Confirm your acceptance in the portal.

3 Get ready

Review your tuition and fees as outlined in your offer and ensure your payments are received by Fleming College by the due dates.

Apply for your Study Permit and Visa as soon as possible. You can find a link to government information on processing times on our How to Apply webpage.

Your timetable will be available a few weeks before classes start. Check your myCampus Student Portal to view your schedule and prepare for your courses.

ENGLISH AS A SECOND LANGUAGE BRIDGE (ELB) PROGRAM

We recommend that new students take our ELB placement test on campus. Applicants may also provide a recent IELTS, TOEFL or Duolingo score upon admission and be placed directly into an ELB level.

For maximum learning, students will be placed in the ELB level that corresponds to their lowest individual skill score or, where appropriate, according to the level the program believes is most suitable, regardless of IELTS, TOEFL or Duolingo results.

The program includes:

- Initial assessment of language level
- 24 hours of language instruction per week
- Weekly Experiential Learning activities in the Peterborough community

ELB STARTING LEVEL	IELTS	TOEFL	DUOLINGO
1	2.0	0-9	0-25
2	2.5	10-18	30-40
3	3.0	19-25	45-50
4	3.5	26-30	55-60
5	4.0	31-39	65-70
6	4.5	40-49	75-80
7	5.0	50-61	85-90
8	5.5	62-79	95-100

From Level 8 into a Fleming program

To enter into a Fleming College program, students must meet the program-specific admissions requirements and achieve the following in the English as a Second Language Bridge program:

- For diplomas and certificates: minimum of 70% on course work and on the exit test.
- For graduate programs: minimum of 80% on course work and on the exit test.

Each ELB level is eight weeks long.

The program if offered year-round, with a new intake starting every two months.

Choose your preferred intake in **January, March, May, July, September, or November.**

Please see ELB website for upcoming start dates.

Sir Sandford Fleming College of Applied Arts and Technology ("Fleming College") is currently pursuing an amalgamation with St. Lawrence College of Applied Arts and Technology ("St. Lawrence College"), with a proposed effective date of April 1, 2027, subject to approval by the Ministry of Colleges, Universities, Research Excellence and Security. If the proposed amalgamation proceeds, students admitted to St. Lawrence College or Fleming College may ultimately study at, and receive their credential from, the amalgamated institution, which may have a different name than the institution to which they originally applied.
