We are your home away from home. Located in smaller, diverse urban centres, our campuses have the benefits of city life with nature right next door. The region, home to more than 350 lakes and hundreds of kilometres of trails, is a travel destination renowned for its beauty. Whether you are looking at programs at our Peterborough, Lindsay or Haliburton campuses, you will find welcoming communities with plenty of opportunities to make the most of your time at college.

SUTHERLAND CAMPUS

Set on 200 acres of beautiful green space, our Sutherland Campus lies on the southwestern edge of the City of Peterborough. It features world-class learning environments and comfortable, inclusive living and study spaces. Easily accessible by car or public transit, it is our largest campus hosting around 70 full-time programs.

FROST CAMPUS

Our Frost Campus has 150 acres of fields and forests bordering the Scugog River, close to downtown Lindsay in the City of Kawartha Lakes. The campus is home to all programming within our renowned School of Environmental and Natural Resource Sciences, and the diverse natural environments on-campus ensure an emphasis on outdoor learning.

HALIBURTON CAMPUS

Our Haliburton Campus offers full- and part-time programs within the Haliburton School of Art + Design. The picturesque campus is situated on Head Lake, just outside the village of Haliburton. With a beautiful natural environment to explore, the campus features a Sculpture Forest and recreational trails.

Your Guide TO BECOMING A FLEMING STUDENT

Why is Fleming College the right choice?

Practical Education

We offer several programs you won't find anywhere else. At the heart of our programs lies extensive practical learning, so you graduate with **PROVEN SKILLS**. Employers recognize the calibre of Fleming College graduates. In several programs students receive job offers even before graduating.

Expert Faculty

Our faculty will be your **MENTORS**. They will take the time to help and guide you.

Their close industry ties keep the curriculum updated to the skills employers want.

Their strong connection to employers can give you insider tips on gaining employment.

Supportive Community

Small classes and our tight-knit communities make it easier to make **LIFELONG FRIENDS** and connections. We believe in our students, and we're here for you from the very start.

1 How to Apply

Review our guide to each step of the application process at flemingcollege.ca/international-education/how-to-apply.

You will find important information such as:

- Considerations for choosing a program
- Documents required for your application
- Application dates
- Offers and offer acceptance
- Fee payments

2 Offers and Acceptance

You will receive an offer through the OCAS International Portal. Confirm your acceptance in the portal.

3 Get ready

Review your tuition and fees as outlined in your offer and ensure your payments are received by Fleming College by the due dates.

Apply for your Study Permit and Visa as soon as possible. You can find a link to government information on processing times on our How to Apply webpage.

Your timetable will be available a few weeks before classes start. Check your myCampus Student Portal to view your schedule and prepare for your courses.

Go to International Student Services. They're welcoming and are very good at problem-solving. And Career Services will help you to get better job opportunities.

– Gouri (India)
Mental Health and Addictions

It can be overwhelming to be in a new country, but Canadians are all friendly. It's a multi-cultural environment. And Fleming College organizes events outside campus that help us immerse ourselves within the community and help us embrace Canadian culture.

– Lilian (Philippines)
Business

My advice: Preparation! Study on a daily basis, because that really helped me in my journey. Do things in advance and you'll succeed.

– Carlos (Brazil)
Customs Border Services Administration

Fleming ensures that we have the knowledge to be successful in our careers. There are great laboratories to learn in that help our future career.

Tin (Vietnam)
Pharmacy Technician

Arrival SERVICES

Your experience as a Fleming College student matters to us, so we want to help you succeed from the very start. Take advantage of our arrival services to help you arrive, settle in and prepare for your education. We offer:

- A packing list for important items
- An app that will help you through each step of your travel arrangements
- Subsidized airport transfer from Toronto to Peterborough, Lindsay or Haliburton
- Subsidized accommodation for the first three days
- Welcome Orientation

Arrival
Services and
Accommodation
information

RESIDENCE AND HOUSING

Start your search early to find the right home away from home.

Homestays offer a unique experience living with a family in your own furnished room and are offered through the Canada Homestay Network of MLI Homestay.

We offer **on-campus housing** at all three of our campuses. Spaces in residence are offered on a first come, first-served basis. Be sure to apply and confirm early to secure your spot. For a tour of our suites or more information on our facilities, fees, and how to apply: flamingcollege.ca/student-experience/residence.

Student Housing Guide

Off-Campus Housing

There are many off-campus housing options for those who want to live on their own or share with other students. Places are usually unfurnished. Find valuable resources in our Student Housing Guides, available at flamingcollege.ca/student-experience/off-campus-housing

New

Our Haliburton Campus will now have on-campus housing for full-time students. The new residence is scheduled to open in 2025.

Take a tour of
the Sutherland
Residences

INTERNATIONAL STUDENT SERVICES

Your goals and your success matter to us. We're here to support you, from your application, throughout your studies to your graduation and beyond. Some of our supports include:

- 1-on-1 advising for academic, social, cultural and personal support
- Resources within the college and the community
- Regular information sessions on academics, jobs, immigration and more
- On- and off-campus cultural events
- Trips to local and regional sites

Included in your tuition

With full-time tuition, you also receive access to:

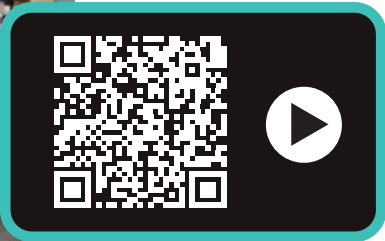

- Health and dental Insurance for international students through MorCare Insurance
- Transit pass (Peterborough)
- Fitness and Recreational facilities
- On-campus workshops and events

Regulated International Student Immigration Advisor (RISIA)

Our on-campus RISIAs hold regular information sessions and can advise on study permits, Canadian immigration programs and temporary resident visas.

Meet the International Student Team

Get involved and make friends

The best way to boost your résumé, make friends and get to know Canadian culture is to get involved. There are plenty of opportunities: leadership activities, student clubs, mentoring and tutoring programs, volunteer opportunities for events, and so much more. Fleming's Co-curricular Record documents your non-academic participation in on- and off-campus events to supplement your résumé or portfolio.

These free services are also available:

Accessibility

Athletics

CAREER PREPARATION

CO-OP

We offer 10+ programs with a co-op or co-op option. Make valuable connections with employers, gain on-the-job experience, and take advantage of the opportunity to earn while you learn.

WORK PLACEMENTS

Put your knowledge into action with a work placement or internship component. Get a taste of your future potential and learn more about your career of choice.

APPLIED PROJECTS

Some programs include a semester-long applied project. Work with an external client and bring your innovation and skills to the table to launch a new initiative or solve a real-world problem.

SIMULATED LEARNING

Our high-tech simulated learning environments are designed to give you a true-to-life, full sensory experience. Simulated learning rounds out your theory and knowledge with the practical skills you will use day-to-day in your future career.

APPLIED RESEARCH

As a hub of expertise in water/wastewater technologies, aquaculture, and mechatronics, we provide valuable opportunities for students to participate in applied research within these specialties.

Credentials at Fleming College:

Certificates: 1 year of full-time study
Diplomas: 2-3 years of full-time study
Graduate Certificates: 1-2 years of full-time study

PROGRAM INFORMATION

Language Requirements

Diplomas and Certificates

- Pharmacy Technician (PHM)
 - TOEFL 91
 - IELTS 6.5 with no band less than 6.0
- All others:
 - TOEFL 80 with no score less than 20
 - IELTS 6.0 with no band less than 5.5
- Applicants through SDS stream: No band less than 6.0

Graduate Certificates

- TOEFL 88 with no score less than 22
- IELTS 6.5 with no band less than 6.0

Academic Start Dates

- Fall 2025: September 2, 2025
- Winter 2026: January 5, 2026
- Spring 2026: May 4, 2026

Program Charts Key

Minimum Admission Requirements

All diplomas and certificates require a high school diploma as well as any courses in the subject(s) listed in the chart.
All graduate certificates require a college diploma or university degree in a program-related field as listed in the chart.

Campus Locations

P – Peterborough L – Lindsay H – Haliburton

Common First Semester

Some diploma programs share a common first semester. Common first semester allows you the freedom to explore and obtain a multidisciplinary perspective, while you acquire a base of knowledge and fundamental skills. You might find that a different program is more suited to your goals and interests. If so, you can transfer into your preferred program in semester two, depending on enrolment capacity and academic requirements. Look for these symbol in the program charts:

Indigenous Perspectives Designation

Unique in Ontario, the Indigenous Perspectives Designation (IDP) provides you with an in-depth knowledge of First Nation, Inuit, and Métis peoples, their cultures, histories, traditions and contributions to our shared society. Programs that offer an IDP provide experiential learning and discipline-specific Indigenous curriculum in each semester. Look for this symbol in the program charts:

PGWP Eligibility

Based on the information currently available from IRCC, the following programs at Fleming College align with the new field of study requirements, and graduates from these programs may be eligible for PGWP. However, the final decision regarding PGWP approval is determined by IRCC. Students should review the eligibility criteria to determine if they meet all requirements. Look for this symbol in the program charts:

TO FLEMING

Hear directly from a student in Computer Security and Investigations on why he chose us.

Business Programs

DIPLOMAS

Business

Gain broad exposure to core business functions through simulation scenarios, case studies, an extensive applied project as well as group and independent studies.

GRADUATE CERTIFICATES

Digital Finance

A combination of theory and hands-on practice will help you fast-track your career in this quickly-evolving field. You will learn the fundamentals of a wide range of industry topics, such as cryptocurrencies, AI, cybersecurity, portfolio management and data analysis.

Digital Marketing

Specialize in creating compelling, measurable digital experiences for customers. Consolidate your skills with a comprehensive digital marketing plan for a real-world client in the last semester.

Information Technology Programs

DIPLOMA

Computer Engineering Technician

Gain necessary skills in computer networking and configuration, network security and technical communications through extensive hands-on learning. Prepare for several industry certification exams.

ADVANCED DIPLOMAS

Computer Security and Investigations ^{FC}

This program is unique in Ontario. Cutting-edge curriculum will prepare you to take a leadership role in the protection and security of information technology. Includes an applied project or co-op field placement.

GRADUATE CERTIFICATES

Artificial Intelligence ^{FC}

With this unique, hybrid, two semester program you will be ready to meet the growing need for talented individuals equipped with the knowledge, skills, and tools to implement AI and machine learning technologies in different industries.

TRADES AND TECHNOLOGY

SKILLS TRAINING FOR YOUR CAREER

flemingcollege.ca/school/trades-and-technology

^{FC} = Unique program offered at Fleming College

Applied projects are a key component of select programs within our School of Business and Information Technology. Learn more about how these projects help students on their learning path.

BUILD YOUR CAREER

Your hands-on training in world-class facilities will incorporate the latest tools and technologies to give you a head start when you graduate. You will learn in state-of-the-art shop facilities, smart classrooms, high-tech labs, and integrated learning spaces shared with related trades. Fleming is also taking bold steps with community and sector support to increase the number of women in skilled trades.

CERTIFICATES

Electrical Techniques

Develop basic skills in electricity, network cabling and electrical system installation as a pathway to a variety of occupations or the Electrical Engineering Technician program.

Heavy Equipment Operator

Learn to operate and maintain large equipment used in the construction industry, such as bulldozers, hydraulic excavators and backhoes.

Mechanical Techniques – Plumbing

Learn basic skills for work installing, maintaining and repairing piping systems. Graduates qualify for exemption from Level One basic in-class portion of the plumbing apprenticeship and can obtain industry-recognized certifications, including the Operation of Small Drinking Water Systems course.

Trade Fundamentals

This program provides a sampler of basic level construction and trades skills and a pathway with transfer credits to several Fleming College trades programs.

Welding Techniques

Enter the welding trade’s vast employment and specialization opportunities or continue to the second year of the Welding and Fabrication Technician diploma program. Graduates can challenge two welding certifications (SMAW 1GF and 2GF) from the Canadian Welding Bureau.

DIPLOMAS

Carpentry and Renovation Technician

Graduate with the requirements for general carpenter apprentice level two and a career in the renovation and construction field. You will gain business and home renovation skills that include entrepreneurial skills, custom millwork, basic plumbing, wiring and drywalling.

Electrical Engineering Technician

Electrical and electronic theory and practice will train you for an entry position or apprenticeship in the electrical industry.

Connecting Students to Industry ▶

Events such as the Welding Industry Showcase allow our students to display their creative projects and network directly with employers.

Heating, Refrigeration and Air Conditioning Technician

This hands-on program emphasizes renewable, sustainable and alternative energy efficient practices. Qualified students can apply to write certificates of qualification for Oil Burner Technician (OBT-3, OBT-2) and Gas Technician (G-3, G-2).

Motive Power Technician – Recreational and Sport Vehicles (Optional Co-op) **FC**

This is the only diploma program in Ontario to offer interdisciplinary training for aviation, marine, recreational vehicles, and small engine maintenance and repair. An optional co-op and in-school apprenticeship training ensures you will graduate with a head start on your career.

Welding and Fabrication Technician

Gain hands-on experience in all major welding processes and metal cutting techniques for entry-level positions. Qualified students can challenge several welding certificates from the Canadian Welding Bureau.

ADVANCED DIPLOMAS

Electrical Engineering Technology (Optional Co-op)

This advanced diploma focuses on industrial electrical power, process control, and automation systems. You will receive extensive hands-on training on the latest equipment and software gaining valuable technical knowledge and experience. An optional co-op is available.

FC = Unique program offered at Fleming College

HEALTH AND COMMUNITY SERVICES

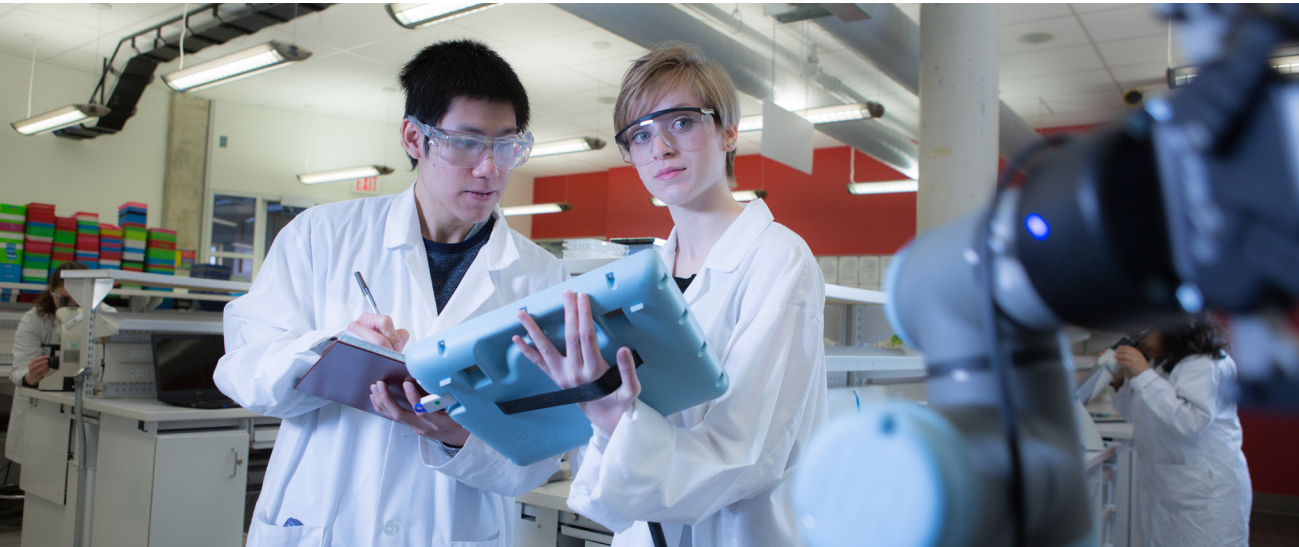

SERVE
ON THE FRONT LINES OF
SOCIETY

flemingcollege.ca/school/health-and-community-services

LEARN TOGETHER, WORK TOGETHER

Supporting our communities requires a collective approach, and at Fleming that starts within our programs. You'll learn the same way you'll work in your profession – in collaborative, interdisciplinary teams of students from related programs.

Simulation-based learning

Our high tech Simulation Centre creates immersive learning experiences. The technology and facilities in this centre include:

- Fully equipped, nursing and PSW labs.
- High fidelity mannequins that can be programmed to simulate a large number of conditions. Students can perform a variety of procedures, which will produce real time responses to interventions.
- A Home lab to practice skills in a home environment.
- A high tech SIM lab, where simulations can be projected onto 3 walls and the floor, and walls can turn into touch screens for videos.
- A security hub, suspect/asset interview rooms, jail cell and prop car.

Admission Pathway to Health Programs

If you are missing admission requirements to enter into some of our Health programs, you can start with one of our pathway programs. We have reserved seats for eligible pathway program graduates in these Health programs:

Pre-Health Sciences Pathway to Certificates and Diplomas

- Occupational Therapist Assistant and Physiotherapist Assistant
- Practical Nursing
- Paramedic
- Pharmacy Technician

Pre-Health Sciences Pathway to Advanced Diplomas and Degrees

- Biotechnology Advanced

Hands-On Learning in Practical Nursing

Take a look at the extensive simulations that start right in Semester 1 for our Practical Nursing students.

Placements that prepare you for an exciting career

Biotechnology – Advanced student Ashley DeGrazia completed her program placement at the Centre for Addiction and Mental Health. Find out how this placement benefitted her education.

Allied Health Programs

DIPLOMAS

Pharmacy Technician

Prepare for a career as a valued member of a pharmacist's healthcare team with practical training in our pharmacy lab and two work placements in different settings.

Practical Nursing

This accelerated program will strengthen theory with concurrent practical experience in our modern labs using high tech, high touch simulation tools. Clinical experience in hospitals and/or community settings throughout the program will consolidate your skills.

ADVANCED DIPLOMAS

Massage Therapy (Compressed)

The program provides an exceptional learning environment with diverse applied experience opportunities. You will provide therapeutic treatments to a variety of clients at the Spa + Clinic at Fleming College, located on campus.

Respiratory Therapy

This accelerated, highly interactive and practical program will train you to provide safe, therapeutic cardio-respiratory interventions.

Applied Health Programs

CERTIFICATE

Personal Support Worker

Approximately 400 hours of relevant theory and 300 hours of real-life, clinical training will prepare you for a satisfying, people-focused career, helping to maximize the life experience of children, adults and seniors with special needs or disabilities.

DIPLOMAS

Fitness and Health Promotion

Become a fitness and health consultant with knowledge of exercise science, coaching, health promotion and business. Includes a field placement. Dual diploma option with Recreation and Leisure Services.

Occupational Therapist Assistant and Physiotherapist Assistant

Cross-train for both career options in this deliberately broad-based program, which includes a minimum of 500 hours of clinical training.

FC = Unique program offered at Fleming College

Paramedic

Train for a dynamic career in pre-hospital emergency care through a well-balanced curriculum of theory and hands-on practice.

ADVANCED DIPLOMA

Biotechnology – Advanced

A combined specialization of biotechnology and forensics, an accelerated format that condenses the material of six semesters into five, training in multiple job-ready skills and an internship in the final semester prepare our in-demand graduates for diverse opportunities.

GRADUATE CERTIFICATE

Health Care Management/ Health Care Management – Canadian Context

Expand on your background in healthcare to become a leader of interdisciplinary teams in diverse environments within the Canadian healthcare setting. Gain business and leadership fundamentals and foundational knowledge in finance, human resources, health equity, and change management through a mix of online and intensive in-person learning. A capstone project or placement will consolidate your new skills and knowledge.

Community Services Programs

Community Collaboration in Addictions and Mental Health	CAM	P	2 semesters	College Diploma or University Degree in related field, such health, emergency response, social work or other helping profession or justice related field, or equivalent.	✓	51.1501	Sep/Jan

On-Trend Curriculum Enhancements

The recently revised **Police Foundations** curriculum focuses on policing for today, building equity, diversity and resilience. It includes interdisciplinary training with Fleming’s Mental Health and Addictions program, de-escalation training and experiential learning through role playing to understand what it’s like to be in someone else’s shoes.

Fleming’s **Customs/Border Services Administration** program includes extensive hands-on training with real-life enforcement tools. Our graduates are in demand, and an expanded breadth in curriculum will prepare you for broad employment opportunities, including private import/export companies, logistics and custom brokerages.

Social Services Programs

DIPLOMAS

Developmental Services Worker
Provide individualized support for people of all ages with intellectual disabilities. Includes three field placements in different settings. Graduates are in high demand.

Mental Health and Addiction Worker
Gain the skills to work in a variety of settings supporting clients, families, groups and communities affected by substance abuse and mental health issues. Includes field placement. Optional dual diploma with Social Service Worker in two years.

Social Service Worker
Be at the front line of positive change in your community, bringing resources and support to improve the lives of individuals, families and groups. Includes field placement. Optional dual diploma with Mental Health and Addiction Worker in two years.

GRADUATE CERTIFICATE

Community Collaboration in Addictions and Mental Health
Leverage your background in the helping professions or in public safety to upskill in addictions and mental health. Learn to deliver responsive, culturally relevant, client-centred assessment and treatment to diverse individuals and groups. The program also focusses on the skills to navigate the complexities of interprofessional teams. Consolidate theory and practice in a 7-week placement in a community or clinical setting in the final semester.

Community Safety Programs

DIPLOMAS

Customs/Border Services Administration
Prepare for a career on the front line of global trade and law enforcement with the most customs-specific curriculum in Canada. Includes a field placement.

Police Foundations
Train to deal with the wide range of situations encountered in policing and civil policing careers. Includes innovative curriculum in mental health and communication skills and a field placement.

Social Services Programs

DIPLOMAS

Early Childhood Education
Support a child’s growth and development with creative play-based learning. Extensive skills development includes practicums, an interactive children’s program and a team project “Creating Your Own Childcare”.

Educational Support
Our updated curriculum prepares you to work as part of an educational team that supports children with a diverse range of abilities. Includes extensive work placements and training on multiple advanced classroom technologies.

FC = Unique program offered at Fleming College

Practical Experience

CERTIFICATES

Arboriculture

Provide a “green” relief from the urban jungle by providing tree care, including diagnostics, pruning removal and other relevant landscape operations.

Blasting Techniques ^{FC}

The only program of its kind in Canada prepares you for a career as blaster, filling blast holes for mining or demolition. You will spend much of your time in our state-of-the-art drilling and blasting training centre.

Forestry Techniques ^{FC}

The only program of its kind in Ontario, this intensive, two-semester certificate will give you the sought-after technical skills needed to launch a successful career in the forestry sector.

DIPLOMAS

Conservation Biology ^{FC}

In the only program of its kind in Ontario, you will focus on the conservation of at-risk animal populations using current research and technologies, including genetics and environmental DNA (eDNA). Includes 40-hour field camp and semester-long research project.

Ecosystem Management Technician

Contribute to ecosystem health by helping governments, conservation groups and wildlife organizations with environmentally sustainable planning based on field research and data analysis.

Fish and Wildlife Technician (Optional Co-op)

Start your career in sustainably managing the habitats and populations of fish and wildlife. Your skill development includes laboratory work, multiple field trips, a five-week field school as well as training in boat handling, GPS, monitoring technologies, bird banding and fish netting, sampling and tagging.

Forestry Technician - Adaptive Practices (Optional Co-op)

Acquire the skills for responsible forest resource management, planning and protection through classroom studies, several field excursions, and a field camp experience.

Resources Drilling Technician (Optional Co-op) ^{FC}

This is the only program of its kind in the world, offering training in many different types of drilling. You will gain technical training and extensive hands-on experience on a full range of drilling equipment at our program facility. National and international employers recruit our graduates.

GRADUATE CERTIFICATE

Environmental Land Management - Canadian Context

Contribute to healthy, inclusive, and sustainable communities through environmental land management and planning. This is the only post-grad program of its kind in Ontario and includes an comprehensive applied project in the final semester.

CERTIFICATE

Artist Blacksmith ^{FC}

In this unique program, you'll learn how to control fire and hot metal to create amazing pieces that range from small scale objects to large installations. Graduate with strong technical skills in blacksmithing, augmented by expanded creative thinking and an impressive portfolio.

DIPLOMA

This programs are delivered in Haliburton.

Visual and Creative Arts

In this immersive program, you will start with a foundational year of broad skills essential in making any form of art, then choose a studio-intensive discipline: painting, jewellery, photography, digital image design, moving image design, glassblowing, ceramics, fibre arts or artist blacksmithing.

ADVANCED DIPLOMA

This programs are delivered in Peterborough.

Graphic Design - Visual Communication

Graduate in just two years in this accelerated program that compresses three years of study into six consecutive semesters. You'll be prepared to work across a range of media and platforms, creatively solving problems through visual communication.

GRADUATE CERTIFICATES

These programs are delivered in Peterborough.

Cultural Heritage Conservation and Management ^{FC}

This is one of the only college-level post-graduate programs of its kind in Canada. Through extensive hands-on experiences and an intensive, fast-paced curriculum you will learn a wide range of techniques to preserve and conserve museum materials. Includes an unpaid internship.

Museum Management and Curatorship ^{FC}

Unique in Canada and developed in consultation with museums and heritage organizations, this time-intensive program offers real, not simulated, work experience through labs, site visits, in situ applied projects and valuable hands-on learning. Three-quarters of your time will be spent learning and practicing at a museum. Final semester is an unpaid internship.

Creative Careers Begin with Experiential Learning

The final four months of the Museum Management and Cultural Heritage Conservation and Management programs are an internship. Students have worked in leading museums and cultural institutions across Canada and around the world. Graphic Design – Visual Communication students are ready to hit the ground running with over 390 hours of direct work experience with real-world clients. The End-of-Semester Exhibition is an opportunity for our students to get first-hand experience mounting a show and presenting their work.

ENGLISH AS A SECOND LANGUAGE BRIDGE (ELB) PROGRAM

We recommend that new students take our ELB placement test on campus. Applicants may also provide a recent IELTS, TOEFL or Duolingo score upon admission and be placed directly into an ELB level.

For maximum learning, students will be placed in the ELB level that corresponds to their lowest individual skill score or, where appropriate, according to the level the program believes is most suitable, regardless of IELTS, TOEFL or Duolingo results.

The program includes:

- Initial assessment of language level
- 24 hours of language instruction per week
- Weekly Experiential Learning activities in the Peterborough community
- Tutoring support

ELB STARTING LEVEL	IELTS	TOEFL	DUOLINGO
1	2.0	0-9	0-25
2	2.5	10-18	30-40
3	3.0	19-25	45-50
4	3.5	26-30	55-60
5	4.0	31-39	65-70
6	4.5	40-49	75-80
7	5.0	50-61	85-90
8	5.5	62-79	95-100

From Level 8 into a Fleming program

To enter into a Fleming College program, students must meet the program-specific admissions requirements and achieve the following in the English as a Second Language Bridge program:

- For diplomas and certificates: minimum of 70% on course work and on the exit test.
- For graduate programs: minimum of 80% on course work and on the exit test.

ELB PROGRAM DATES			
2025			
September 2	-	October 24	ELB
October 27	-	December 19	ELB-2
2026			
January 5	-	February 27	ELB
March 2	-	April 24	ELB-2
May 4	-	June 26	ELB
June 29	-	August 2	ELB-2
