WHY CHOOSE FLEMING

TRAINING FACILITIES

The Eastern Ontario Emergency Training Academy (EOETA), our primary training facility, is located 40km east of Peterborough in the village of Norwood. EOETA has several established training environments including a burn tower, roof props, door props, search and rescue maze, confined space prop and a new high intensity propane training props. Students are fully-trained in all aspects of firefighting in a real-world environment, live-fire environment, allowing for a proper evaluation of each student, while completing the NFPA hands-on skills practice and evaluations.

FACULTY

Our instructors are current experienced professional firefighters, dispatchers, and fire prevention officers from fire departments across Ontario. They are all dedicated teachers who provide a unique learning environment with relevant examples from personal experience. They will also help you to network and make connections with industry leaders.
