Program Highlights

This nursing specialty for RNs gives you the skills to become a part of the surgical team, working with surgeons and anesthesiologists. The program includes extensive lab practice and clinical field experience as well as evidenced based theory. The certificate has been designed in accordance with the Standards of Practice of the College of Nurses of Ontario, and in alignment with the guidelines and Standards of Practice of the Operating Room Nurses Association of Canada (ORNAC).

Why Choose Fleming

The Perioperative Nursing program has strong links with Peterborough and the surrounding community's health care facilities and organizations, ensuring students have excellent clinical opportunities.

Work Experience

Two placements with increasing responsibility will help integrate theory with clinical practice and explore the roles and responsibilities of a perioperative nurse.

Is This For You

This specialization can open more employment opportunities and bring new challenges. As a Perioperative Nurse, you will gain specialized training in the pre, post, and intra-operative phase of the surgical process. You will be working under pressure in a rewarding and fast paced environment that requires good time management and critical thinking.

Minimum Admission Requirements

Students applying to Registered Nurse - Perioperative Nursing must meet the following requirements:

- » BScN Degree, Registered Nurse (RN) in good standing with the College of Nurses of Ontario.
- » Students with a RN Temporary License to practice will also be considered.

OSSD with majority of courses at College (C) or Open (O) unless otherwise stated.
Grade 12 C courses will be accepted where Gr 11 C course requirements are listed.
Where College level courses are listed, U and M courses will be accepted.

Vocational Learning Outcomes

- » Practice in a legal, ethical, and professional manner by implementing recognized perioperative standards.
 - » Create a therapeutic environment for surgical clients and their families in order to support client care.
 - » Communicate effectively with interprofessional team members, ancillary personnel and satellite departments to ensure seamless, safe, patient care.
 - » Participate effectively as a team member to support surgical clients' optimal surgical outcomes.
 - » Integrate theory, principles and evidence-informed practice into competent perioperative nursing care.
 - » Complete comprehensive nursing assessments that allow for prioritization, implementation and evaluation of perioperative nursing interventions.
 - » Use technology to support and document surgical clients' perioperative experience and outcomes.
 - » Reinforce preoperative and postoperative teaching-learning as appropriate to promote surgical clients' health and wellness.
 - » Identify and apply discipline-specific practices that contribute to the local and global community through social responsibility, economic commitment and environmental stewardship.
-
